

Targus® 17" Dual Fan Chill Mat™

- Comfortable design
- Protects lap or work surface from heat
- Dual fans help disperse laptop heat for improved functionality
- Fans are powered using a standard USB-A connection that can be connected to your laptop or computer using a mini-USB cable
- Soft neoprene exterior provides added comfort on your lap

The 17" Dual Fan Chill Mat™ provides a comfortable and ergonomic work surface to keep you and your laptop cool. The chill mat rests on your lap and disperses heat, using dual fans to provide ventilation which can be obstructed if the laptop is used on a pillow or comforter. Simply plug the USB connector into the laptop to activate cooling. The ergonomic tilt makes typing easy, while the soft neoprene material provides cushioned comfort on your lap. The open design allows fans to run quietly and stimulates constant airflow. Four rubber stops on the face of the chill mat prevents the laptop from slipping and makes using your laptop an enjoyable experience.
