Samsung Curved Gaming Monitor CJG5F

Curved to Immerse

Featuring Samsung's industry-leading 1800R screen, the CJG5F curves around your field of view to immerse you in all the onscreen gaming action.

Rapid 144 Hz Refresh

The rapid 144 Hz screen refresh rate minimizes image lag and motion blur for smoother gaming. The user-friendly 60 Hz/120 Hz settings let you quickly optimize performance via the on-screen display without having to access the display setting menu.

Multiple Display Modes

The Game Mode instantly optimizes black gamma levels, contrast ratios, sharpness and color value settings for any game genre or movie.

Game Style UI
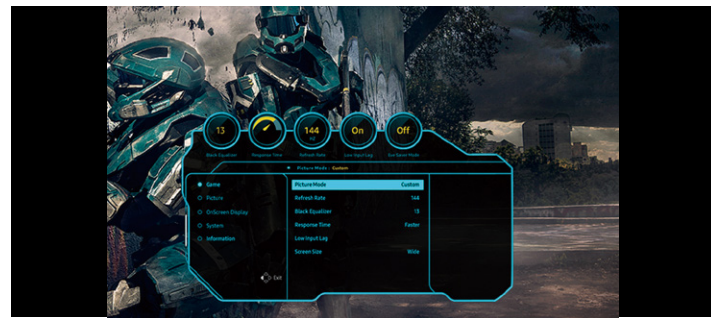

The OSD dashboard menu gives you an instant overview of key settings. With this Good Design Award winner you are always in control.

Deeper Blacks

Samsung's VA panel technology supports a 3000:1 contrast ratio that delivers deeper blacks, brighter whites, and richer colors for clearer, more vibrant movie and game scenes.

Smart cost saver

Smart Eco Saving Plus reduces power consumption during gameplay. The Smart Eco Saving Plus function saves energy by automatically adjusts screen brightness without affecting image quality.
