XTRFY M4 KRIPPARRIAN RED EDITION - ULTRA-LIGHT GAMING MOUSE

KRIPPARRIAN RED EDITION.

M4 Kripparrian Red is a special edition of the Xtrfy M4 mouse, designed in collaboration with world-renowned streamer Octavian “Kripparrian” Morosan. A legend within World of Warcraft, Diablo, Path of Exile and Hearthstone – streaming live nearly every day since 2012. After thousands of hours in-game every year, the M4 Kripparrian Red is Kripp’s vision of the perfect mouse.

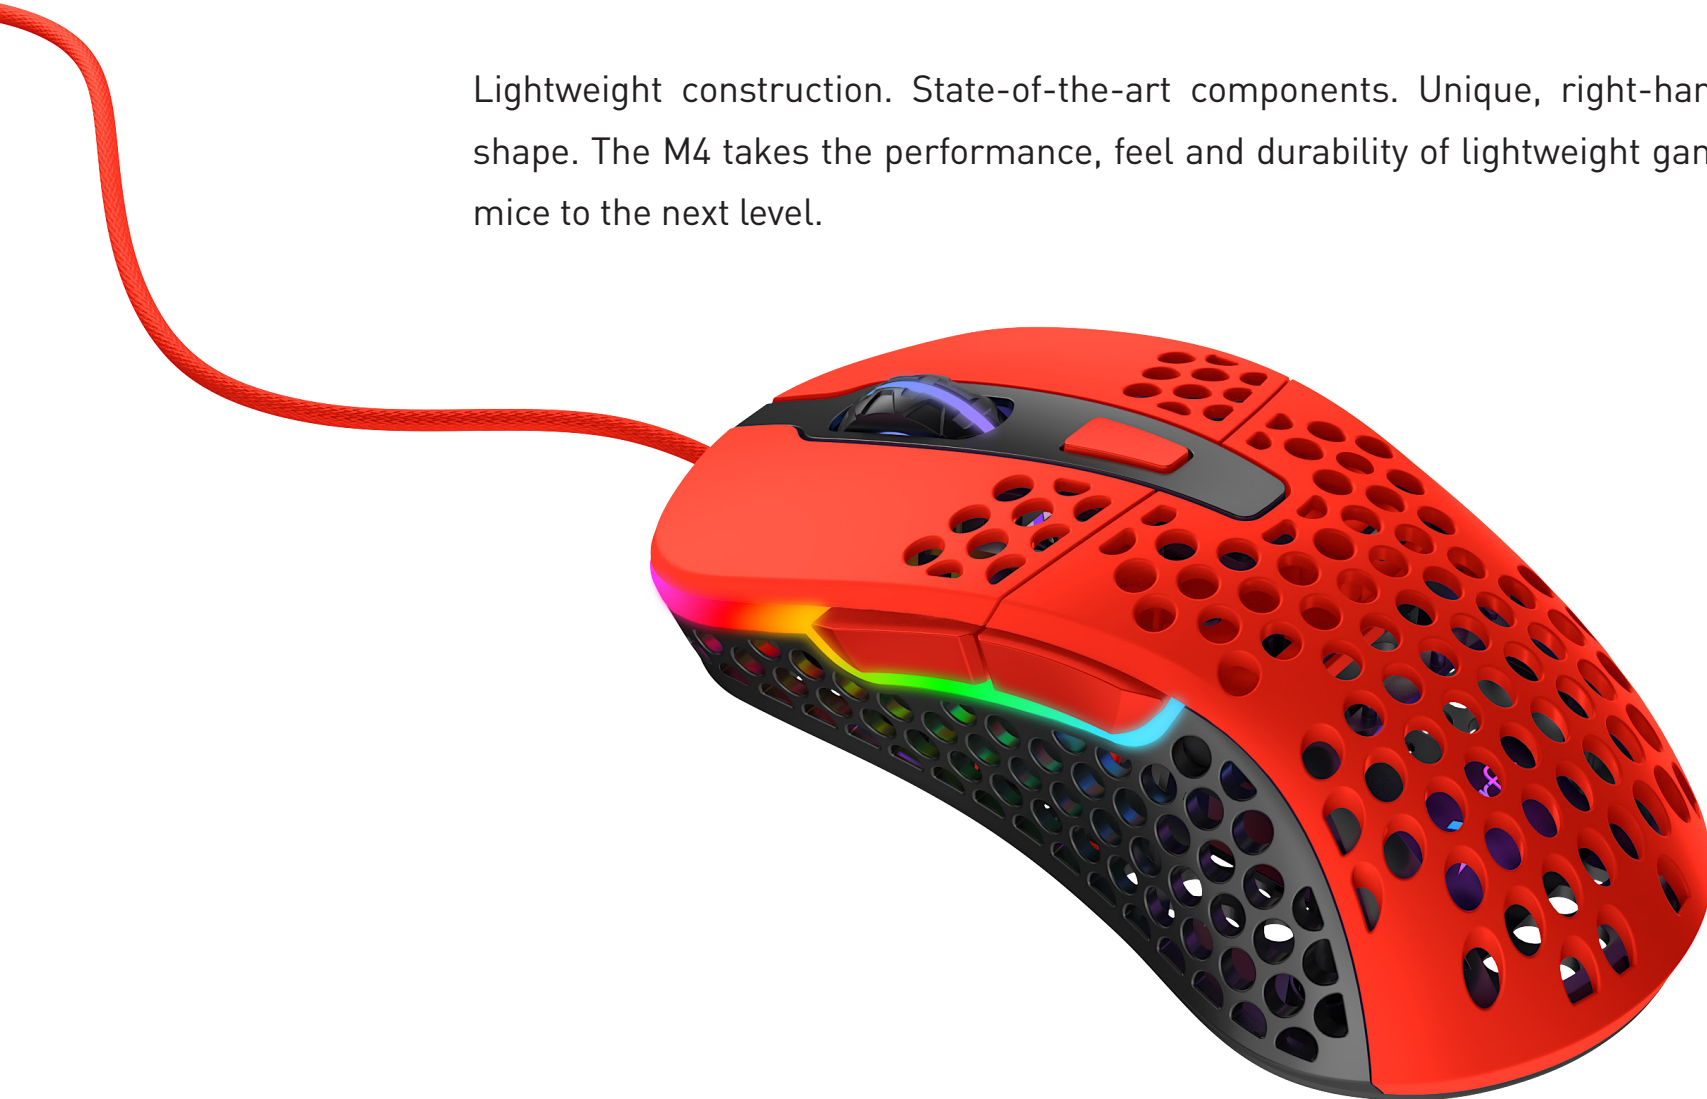

"This is literally the best mouse I have ever used. It's just way above anything else. I didn't want to change a thing about the ergonomics. All I wanted was to Krippify it. And I can't be more proud of this one."

Octavian "Kripparrian" Morosan

ULTRA-LIGHT, ERGONOMIC, TOP-GRADE. MEET THE M4.

Lightweight construction. State-of-the-art components. Unique, right-handed shape. The M4 takes the performance, feel and durability of lightweight gaming mice to the next level.

STAND OUT. IN-GAME AND IRL.

Starting Project 4, it was clear. The M4 wasn't only going to make an impression in-game – we wanted to create something special for all gamers out there. The M4 comes in a series of different colorways, with the Kripparrian Red edition complementing the 5 original versions.

LIGHTWEIGHT DESIGN. ERGONOMIC SHAPE.

The M4 features an ergonomic, right-handed design – uniquely constructed to weigh less without compromising on shape and feel. Formed by feedback from professional esportsers as well as casual gamers, the result is a brand new shape and size.

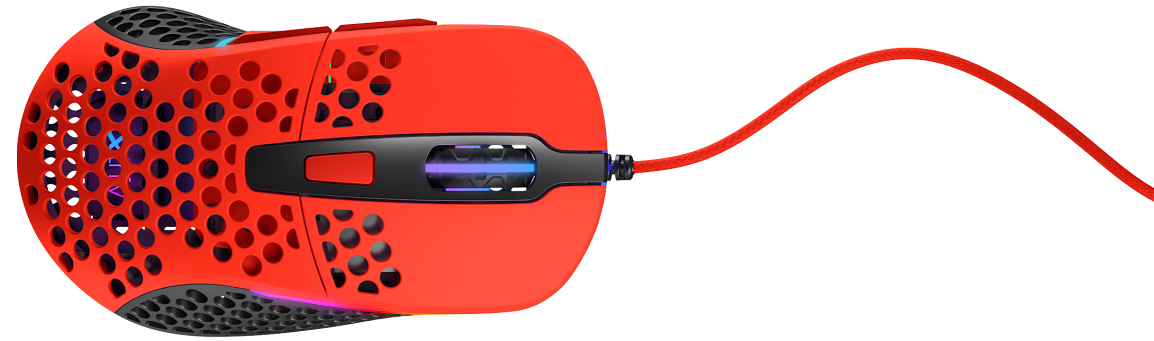

GRIP AND FEEL.

The M4 glides smoothly on 100 % PTFE skates with rounded edges. While the matte coating in combination with the structure of holes make for an even better grip over the ergonomic mouse body. Enhancing airflow under your palm, the holes also help you stay comfortable.

QUALITY FIRST.

The M4 is not just designed to be extremely light. It's built to last. At 69 grams, we've focused on creating the best lightweight gaming mouse rather than cutting down on durability to get rid of a few extra grams. Lower weight must never mean lower quality. No compromises.

STRONG CONSTRUCTION. DURABLE COMPONENTS.

The shell of the mouse is thoroughly engineered to minimize weight while retaining durability. On the inside, the glowing Xtrfy logo is surrounded by nothing but quality components. The Kailh GM 8.0 switches are rated to last for 80 million clicks.

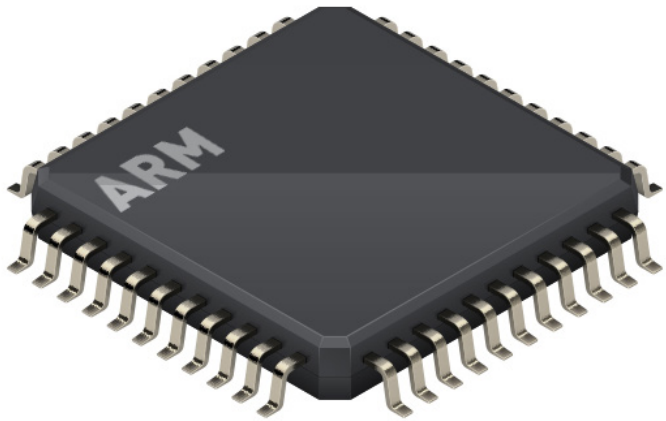

RGB ILLUMINATION.

With customizable lighting, it's easy to add your personal touch to the M4. Choose your color. Switch between numerous LED effects. Adjust the brightness. Or turn the illumination off. All settings are made directly on the mouse.

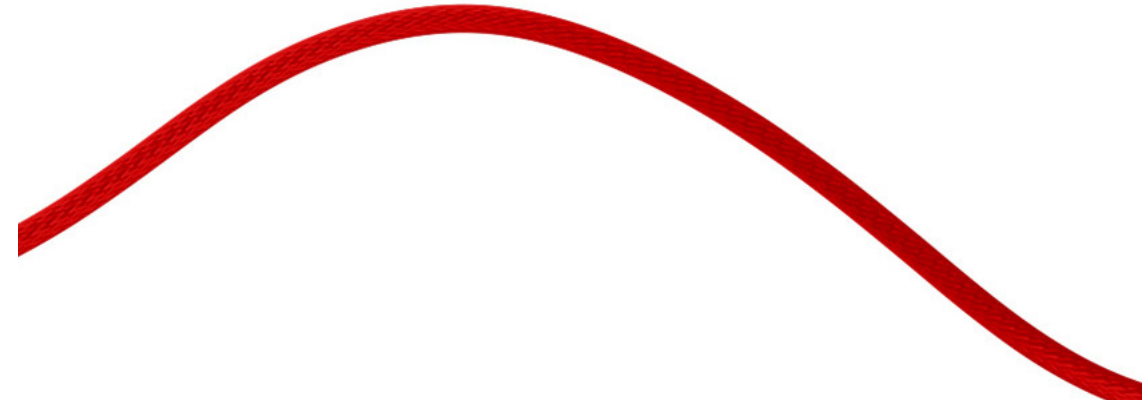

XTRFY EZCORD® PRO (NEW).

The M4 Kripparrian Red edition comes with the new Xtrfy EZcord Pro. Softer, lighter and more flexible, but not at the cost of durability. At Xtrfy, quality comes first and the EZcord Pro is made to last.

DUST AND SPLASH RESISTANT.

We've covered the inside of the mouse in conformal coating to protect the components against dust, splashes and LAN night mishaps.

ARM 32-BIT MICROCONTROLLER.

Fast swipes require high-speed processing. The M4 is powered by an ARM 32-bit microcontroller for uncompromising speed and stability.

WINNING INGREDIENTS:

Pixart 3389 optical gaming sensor

Adjustable RGB LED illumination

Weight: 69 g (excluding cable)

Main switches: Kailh GM 8.0

Cable: 1.8 m Xtrfy EZcord® Pro

PTFE glides

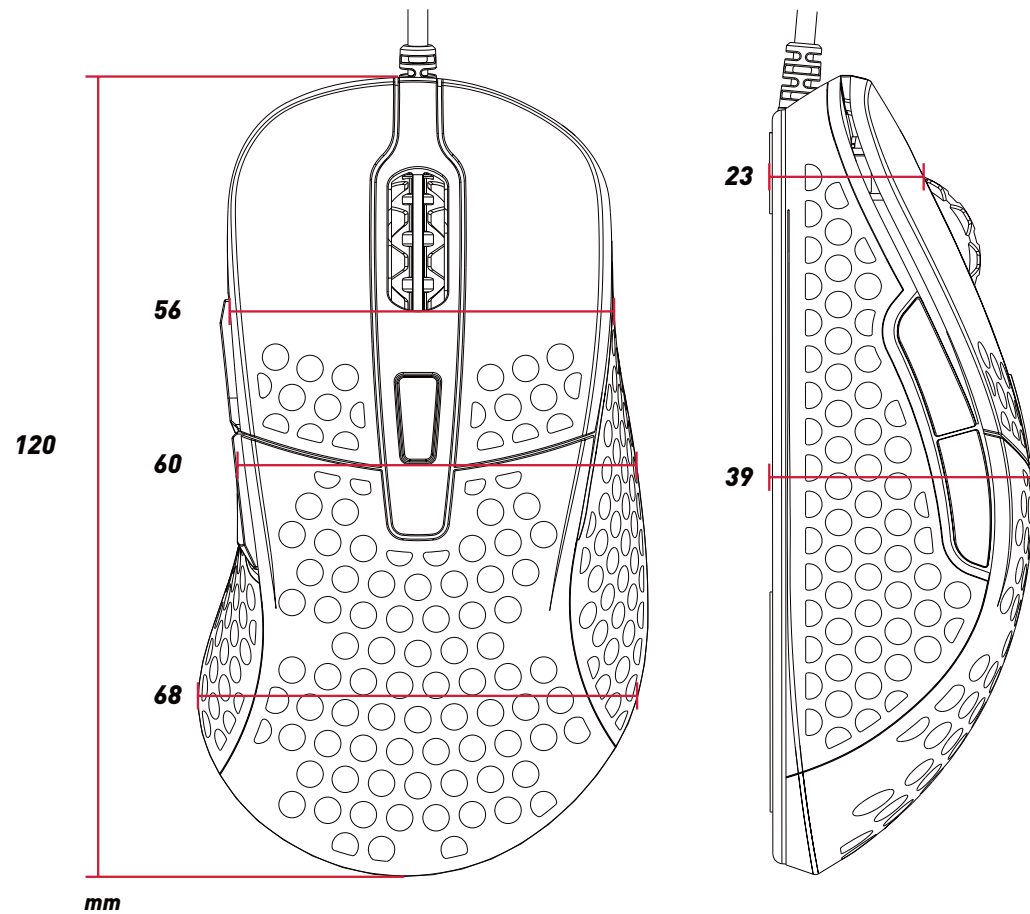

UV coated surface

CPI button (400–16000)

Polling rate switch (125/500/1000 Hz)

OS: Win XP/Mac OSX 10.1 or later

Warranty EU/US/ASIA: 2/1/1 years
