MEETS PRACTICAL
PORTABILITY

Ultra-small, powerful, and versatile, the ThinkCentre M9On-1 Nano is here to take the desktop standard to a whole new level of convenience. Powered by the latest generation Intel® processors and backed by SSD storage it makes everyday computing effortless.

The 0.35L M90n-1 Nano is 65% smaller than a ThinkCentre Tiny and can easily fit in any office environment. Compatible with Tiny-in-One (TIO), USB Type-C docks, and monitors, the Nano can give your business a much-deserved shot in the arm.

ThinkCentre. M90n-1 Nano

Unmatched Performance: the ThinkCentre Nano can be specced up to Intel® Core™ i7 processors. Up to 16GB DDR4 memory adds to the device's multitasking capabilities.

Compact Design: the 0.35L Nano with a compact form factor is designed to fit in any business environment. Compatible with the TIO via Cube, you can easily place the Nano behind a monitor and free up valuable desk space.

Advanced Connectivity: with fully functional USB Type-C and USB 3.1 Gen2 ports on the front and back, there are numerous add-ons like multiple displays, docks, and other hardware options to help improve your productivity.

Impressive Adaptability: using compatible accessories, the Nano can be placed on a wall, under a desk, behind a monitor—just about anywhere you want. It can also be powered through one cable via a USB Type-C monitor, for a clutter-free workspace.

ITDM Benefits

Durability

ThinkCentre Nano is MIL-810G SPEC tested—built to withstand 10 different extreme conditions including shocks, drops, dust, and humidity.

Security

The HW TPM 2.0 chip encrypts data to ensure sensitive business information remains safe. Using the Kensington™ lock slot, you can physically secure the device to an immovable object, thereby protecting it from theft.

Manageability

Nano supports Modern Standby, a feature that allows you to receive emails, VoIP calls, and instant messages while on standby mode, much like a smartphone. It also resumes to full function instantly, in less than a second.

RECOMMENDED SERVICES

Premier Support

Bypass phone menus and scripted troubleshooting to access advanced-level technicians with the expertise needed to quickly diagnose and solve problems.¹²

Warranty Upgrades

Onsite Service maximizes PC uptime and productivity by providing convenient, fast repair service at your place. In addition, with Tech Install CRU service the installation of all internal Customer Replaceable Unit (CRU) parts will be done on your behalf by a trained technician.

Warranty Extensions

This fixed-term, fixed-cost service helps you accurately budget for PC expenses, protect your valuable investment, and lower your cost of ownership over time.¹

Keep Your Drive

Retain your drive if it should happen to fail, giving you the peace of mind of knowing that your valuable data is secure. ^{1, 2}

1 Up to 5 years total duration 2 May not be available in all regions

Depending on many factors such as the processing capability of peripheral devices, file attributes, and other factors related to system configuration and operating environments, the actual transfer returning the various USB connectors on this device will vary and is typically slower than the data rates as defined by the respective USB specifications: - 5 Gbit/s for USB 3.1 Gen1; 10 Gbit/s for USB 3.1 Gen2 & 20 Gbit/s for USB 3.2.
