#### 98" 4K UHD Professional Digital Signage 24/7 display (Landscape and Portrait) featuring Android OS, FailOver and OPS PC slot

The ideal all-in-one solution for environments where performance and reliability are mission critical. The iiyama ProLite LH9852UHS is a 500cd/m<sup>2</sup> high brightness professional large format display with a 24/7 operating time. On-board Android 8.0 OS means you can easily customize the display to your needs and install applications directly to it. The embedded option of Nsign\* empowers you to create and schedule a range of content across multiple screens using a powerful cloud-based solution. The OPS PC Slot provides embedded PC option for total flexibility, security and control, while the FailOver feature ensures your content is always actively displayed through your choice of inputs.

\*Nsign license required - please see ournsign landing page for more information.

#### Signal FailOver

FailOver is a feature which automatically detects input sources. When there is no signal on the default input it will automatically switch to the next available input. FailOver allows customers to prioritize a number of inputs (incl. Browser, Media Player and Custom) and ensures your content is always actively displayed, assuring active content at all times.

Thanks to Android OS, you can easily customize the display to your needs by installing applications directly to it.
